

Stéphane Lacasse

Vice President of Product Management for
Canada and Rating Products

Stéphane Lacasse, Vice President of Product Management for Canada and Rating Products, leads several teams within the organization including rate maintenance implementation, software development and product management. Lacasse joined Applied Systems when the company acquired Compu-Quote in June 2012. He began at Compu-Quote in 1992 as a developer and advanced to a number of senior roles, including the management of flagship products AutoRater and PropertyRater. He holds a bachelor's degree in Applied Science from Laval University.
