

Applied eQuote

Give customers the convenience of self-service quoting with Applied eQuote™.

Applied eQuote allows you to offer quotes only, quote and buy or complete online quoting self-service facilities and is a perfect solution for Motor, Home and Commercial Vehicle insurance.

Seamlessly integrated with your Applied Relay™ back office, Applied eQuote creates a 24/7 online presence within your existing website to trade your products and gives customers the power to look after themselves – anytime, anywhere. It is fully managed and supported by Applied Relay and allows documents to be emailed on demand and provides a secure login for previously-stored quotes.

Applied eQuote makes prospects, clients and policy information instantly available offline, enabling more effective cross-selling to existing and prospective customers.

What Applied eQuote Offers Your Business

- A quick quote solution for motor, home and commercial vehicle insurance
- An analysis of successful online activities and the ability to batch produce complete document packs with ease
- A secure login to review and download all documents and view a complete portfolio
- The ability to collect payments 24/7 to enable more effective cross-selling
- A fully customisable dashboard that includes Google Analytics, Site Activity and Leads Management

**52% of consumers are willing to
switch insurance providers for
greater online service.**
